

### # 3. OECD Staff guidelines for the use of Generative AI

**Seohyun Kim, 2023 / Python (matplotlib.pyplot and WordCloud)**

**User:**

Hi, ChatGPT. I made a wordcloud with the OECD Staff guidelines for the Generative AI from the Secretary-General. Can you write an explanation for me?

### ChatGPT:

Certainly! Here's my explanation:

"This wordcloud visually represents key themes on Generative AI guidelines from the Secretary-General, highlighting predominant concepts through varied word sizes based on frequency, offering an insightful overview."

**Disclaimer:** The Guidelines were not shared with ChatGPT, so the model is making up the response without having any clue about the content! For more on the pitfalls of GenAI in Finance, see the forthcoming OECD report on “Generative AI in Finance”.
